

Instructions

In this activity, you will be given a pencil and pictures of objects you may use every day. As you explore the galleries, see if you can find artifacts on display that are either:

- older versions of the object in the picture (e.g., an early 20th century telephone to match with the picture of the cell phone), or
- versions of the pictured artifacts that are from another part of the world (e.g., matching a frying pan with a wok).

By each picture, write the name of the artifact you have matched it with in the gallery. Match 5 pictures with gallery artifacts, and you will get a sticker.
